

«Hans-Schaeuble-Award»

The Hans Schaeuble Foundation Zurich has sponsored the Arosa Culture Association and its activities over a number of years. The foundation is dedicated to the furtherance of young musicians and chamber music ensembles. Through the «Hans-Schaeuble-Award», which was first awarded in autumn 2015, this financial support is now clearly visible.

The «Hans-Schaeuble-Award» will be conferred on one or more Arosa Music Academy participants. The award includes a concert engagement within the context of the Arosa Classic Festival. Maximum 2 award-winners can perform as soloists with the «Berg-Ensemble». Further prizewinners will be able to appear in a chamber music concert, together with selected Arosa Music Academy lecturers.
